EDUCATION

FAST NUCES UNIVERSITY Islamabad, Pakistan   **Bs. Software Engineering Expected June, 2025**
Relevant Coursework: Programming Fundamentals, OOP(Object Oriented Programming), Data Structures, Database Systems, Operating Systems, Requirements Engineering, Software Design and Analysis, Web Engineering, Software Construction Development, Artificial Intelligence (AI) , Information Security, Computer Networks
Achievements: Dean's List of Honors, Spring 2023

SKILLS

MERN STACK ,HTML5, CSS3, JavaScript, JQuery, React JS, Node JS, C++, C#, ASP.net, Java, Python, SQL, Github/Git, Mongo DB ,Machine Learning, Classical AI, Docker, CI/CD Github Actions, Problem Solving

---

EXPERIENCE

FAST NUCES, Islamabad
Lab Demonstrator   **28 January 2024- Present**
Serving as a Lab Demonstrator for Object Oriented Programming Course. The role includes assisting the lab instructor throughout the lab duration, helping students debug their code, and evaluate their programming lab tasks.

Code Clause
Web Development Intern - Remote   **1 August 2023- 31 August 2023**
Two significant projects were a part of this internship, which involved developing a language translator using vanilla JavaScript and an expense tracker using Java JFrame.

PROJECTS

Plate-Pal | MERN Stack | Stripe API Integration
·Engineered user-centric platform for recipe exploration, ingredient ordering, and in-app collaboration among chefs, vendors, nutritionists, and admin for dynamic recipe creation.

Classroom Management System | C# | Microsoft SQL Server
Developed a Classroom Management System using Windows Forms App in C#. Connected it to Data Base using Microsoft SQL Server dealing with DML (Data manipulation Language) and DDL (Data Defination Language) languages for manipulating data in the database.

Movie Recommendation System | Machine learning | AI
Going through the process of data collection, feature engineering, and model development, we aimed to offer personalized movie suggestions tailored to individual tastes and interests.

CERTIFICATIONS

Meta Database Engineer Specialization
Introduction to Front-End Development
Introduction to Git and GitHub
